

Bohdan Tymchenko

Senior Frontend Engineer

Lisbon, Portugal | tymchenkobwork@gmail.com | +351912428334

LinkedIn: linkedin.com/in/bohdan-tymchenko-0862a381

PROFESSIONAL SUMMARY

Senior Frontend Engineer with 13+ years of experience building scalable SaaS, FinTech, and data-intensive applications. Expertise in React, TypeScript, Next.js, GraphQL, REST API integrations, frontend architecture, geospatial visualization, and performance optimization. Experienced in collaborating directly with Product, Design, and Backend teams to deliver maintainable, high-performance user experiences. Strong background in data visualization, reusable frontend architecture, and AI-assisted engineering workflows.

TECHNICAL SKILLS

Frontend

React, TypeScript, JavaScript (ES6), Next.js, Redux, Redux Toolkit, RTK Query, GraphQL, Apollo, REST API, Ant Design

Data Visualization & Mapping

Mapbox GL, Recharts

Backend Collaboration

Node.js services, API integrations, MongoDB aggregations, Redis caching

Testing & Tooling

Jest, Cypress, Webpack, Git, Postman, Jira, Confluence, ClickUp

Cloud & Operations

AWS, CI/CD, Grafana

Product & UX

Figma, Design Systems, Product Thinking, UX Collaboration

AI-assisted Engineering

Cursor IDE, GitHub Copilot, Claude Code, MCP Agents

PROFESSIONAL EXPERIENCE

Senior Frontend Engineer — Impala Digital

May 2024 – Present | Remote (US)

- Implemented Mapbox GL features, including clustering optimization for large datasets.
- Built PDF generation workflows for analytics, due diligence, and reporting use cases.
- Developed dashboards and analytical views using Recharts.
- Introduced Redis caching solutions that reduced API latency and improved perceived application performance.
- Collaborated with backend engineers on REST API integrations, API contracts, and data shaping.
- Implemented role-based access control and customer-tier permissions.
- Built and maintained reusable email template systems integrated with SMTP providers.
- Worked closely with Product and Design teams to transform Figma designs into production-ready solutions.
- Participated in sprint planning, grooming, estimation, code reviews, and delivery processes.
- Integrated AI-assisted engineering workflows using Cursor, GitHub Copilot, Claude Code, and MCP-based tooling.

Senior Frontend Engineer — Ledgible / Verady

Jul 2023 – Feb 2024 | United States

- Owned development across three applications within a digital asset accounting platform.
- Worked extensively with GraphQL and Apollo across frontend and backend integrations.
- Improved scalability through MongoDB aggregation optimization and server-side pagination.
- Refactored large-scale email infrastructure into reusable template systems.
- Optimized Apollo Client cache management and application responsiveness.
- Owned features throughout the full delivery lifecycle, from specification and implementation through production deployment.

Senior Frontend Engineer — CASAFARI

2019 – 2023 | Lisbon, Portugal

- Built real estate analytics and mapping features using React, Redux, Mapbox GL, and Recharts.
- Contributed to React migration initiatives and frontend modernization efforts.
- Implemented frontend and backend-integrated solutions focused on data optimization and scalability.
- Worked on data-heavy products involving analytics, mapping, and performance-sensitive user interfaces.
- Collaborated closely with Product and Design teams to improve UX consistency and feature delivery.

Frontend Engineer — X1Group / GlobalDev / Kreditech

2014 – 2019 | Ukraine / Germany

- Participated in migration from AngularJS to modern React architecture.
- Integrated Contentful headless CMS to support multilingual solutions across 11 international markets.
- Built responsive desktop and mobile web applications.
- Contributed to scalable frontend architecture and product development initiatives.

Web Developer / Email Template Team Lead — PSD2HTML

2011 – 2014 | Kharkiv, Ukraine

- Converted PSD designs into responsive HTML email templates and web pages.
- Built and maintained email templates compatible across major email clients and mobile devices.
- Delivered approximately 1000 responsive email templates.
- Led and mentored a dedicated email template production team.

EDUCATION

Bachelor of Cybernetics
Kharkiv State Technical University of Construction and Architecture
2005 – 2010

LANGUAGES

English — Upper-Intermediate
Ukrainian — Native
